Dental Board of California #RP2499.

Course overview

In this informative presentation, Dr. Mike Meek shares the result of his decision to stop placing three-unit bridges and instead refer for extraction and implant placement. This decision dramatically KPETGUGFUCNGUCPFHGHEKGPKEPKU general practice. In addition to the practice management features of this presentation, Dr. Meek demonstrates how single-implant restorations are referred and restored within the format of a busy general practice, and how this business model has catalyzed growth in his practice year over year.

More than just cementing crowns on CDVGPVWGGMouUUCUJKUJ restorative approach can propel a general practice into amazing success with implant restorations. Practitioners will learn case presentation pearls to increase conversion rates, treatment planning for RTDKNKKFOOGFKCGORCKKPEB anterior implants day of surgery, screw-TGCKPGFPCNTGUWCKEUAHCOKPW implant restoration delivery every time CPFITGC&TRTCEKEGGHEKGP[E

This course is packed with useful advice for both the business and clinical side of the general practice and is enjoyed by practitioners of *all* experience levels.

ADA CERP® | Continuing Education Recognition Program

Nobel Biocare USA, LLC, is an ADA CERP recognized provider.

ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

Nobel Biocare USA, LLC, designates this activity for 4 continuing education credits.

Course objectives

- Encourages the traditional surgeon/ restorative dentist relationship.
- Demonstrates “no brainer” case selection for implants versus bridges, and reinforces why this is the most GHEKGPVCHOCRTCEKKEGTGQ involved in implant prosthetics.
- Discusses immediate temporization with screw-retained temporary abutments.
- Introduces treatment planning and case presentation techniques for enhancing conversion rates and increasing RTDKNKYKWOPIUWGT[
- Shows how using PEEK Healing Abutments can achieve “shot free” screw-retained restoration delivery in 15 minutes or less.
- Introduces the NobelProcera® ASC (angulated screw channel) Abutment and its posterior counterpart, the NobelProcera® FCZ (full-contour zirconia) Implant Crown to allow screw-retained restorations to be placed in most all situations and why this is important.
- 5DGPVWCPFUKORNGEPEKSAU for use of DSLR camera to produce ultimate esthetics in the anterior.
- Demonstrates use of custom tissue-URDKPIZVWNGENKORTGUUKD ERKPICPFKUUKP&PEGEUAUUA contours.

Approved PACE Program Provider, FAGD/MAGD Credit. Approval does not imply acceptance by a state or provincial board of dentistry or AGD endorsement (08/01/2016 to 07/31/2020). Provider ID# 208731.
